

PERFORMANCE WORK STATEMENT (PWS)

THE JOINT CHIEFS OF STAFF WARGAMING, ANALYTIC, AND TECHNICAL SUPPORT SERVICES IV

1.0 OBJECTIVE

The Contractor shall provide all staffing, equipment, and materials necessary to perform the tasks as defined in this Performance Work Statement (PWS); except Government Furnished Information, Facilities, Property, Equipment and Services. The Government will provide these items at the primary place of performance at the Pentagon, Washington D.C. The Contractor shall perform to the standards in this contract. In this effort, the Contractor shall provide strictly non-personal services and shall work as an independent Contractor not subject to supervision and control by the Government.

The Contractor shall advise and assist the Government but shall not make final decisions or certifications on behalf of the Government, nor perform any inherently Government functions. The Contractor and its employees shall not represent the Government nor appear to represent the Government in performance of these contract services. At all times, contractor personnel shall wear appropriate identification (in accordance with JCS policy), identifying themselves as contractor personnel. At all meetings, conferences, or sessions with Government personnel, contractor personnel shall clearly identify their status as contractor employees. All deliverables under this contract shall become the property of the U.S. Government upon receipt.

Tasks may not be used to:

- Assign additional work outside the original scope of work
- Direct a change
- Increase/decrease costs or period of performance
- Change any of the terms and conditions of the contract
- Increase the scope of the contract
- Create a binding obligation upon the contractor or the Government

2.0 BACKGROUND

The Joint Staff, J-8 Directorate, has a requirement to provide analytic, strategic, technical, managerial, and administrative support to enhance the Joint Staff's mission and total force readiness. The J-8 Directorate is charged with providing support to CJCS for evaluating and developing force structure requirements. J-8 conducts joint, bilateral, and multilateral war fighting analysis, war gaming, and interagency politico-military seminars and simulations to assess the ability of the programmed force to execute the National Military Strategy. It develops, maintains, and improves the models, techniques, and capabilities used by the Joint Staff and combatant commands to conduct studies and analyses for CJCS.

To assist the CJCS in his duties, the J8 performs detailed, timely, and verifiable assessments of threats and capabilities to establish realistic goals for U.S. defense spending, ensuring linkage between future U.S. military force structure and national objectives. The focal point for J8's analysis of defense capabilities needs, when coupled with the potentially revolutionary impact of technology and increasingly constrained budget authority, is the Joint Requirements Oversight Council (JROC). J8 provides much of the assessment underpinnings for the council's review of defense resource policy on a myriad of items ranging from precision strike capabilities to the designation of advanced concepts technology demonstrations and analyzes the associated service budgets and programs.

The Combat Support Agency Review Team (CSART) assessment is a constructive and collaborative process designed to optimize the combat support effectiveness of each combat support agency (CSA). Because of SARAO's unique capability of assessing organizations support to the Combatant Commands and Services (primarily the Components), it may be tasked to assess similar agencies/ organizations. The success of the CSART process is measured by the degree to which it can facilitate the introductions of its recommendations to positively influence agency internal processes and systems, and potentially actions within larger key capability, programmatic, and budgetary processes. The Support Agency Review and Assessment Office (SARAO) also maintains the Joint Staff expertise on the CSAs and represents Joint Staff in forums and studies where such expertise is required. The CSART process, outlined in CJCS Instruction 3460.01, is a process based upon agency requirements outlined in their respective charters, Operations and Contingency Plans, and utilizes their respective CSA Joint Mission Essential Tasks Lists (JMETLs) or other associated metrics and performance data to support more objective and continual assessments of responsiveness and readiness.

The CSART will also assess the CSAs participation/consideration within the Joint Strategic Planning System (JSPS), with emphasis in the Chairman's Readiness System (CRS), Joint Training Information Management System (JTIMS), Joint Lessons Learned Information System (JLLIS) and Joint Capabilities Integration Development System (JCIDS). As a result, this effort is evolving to meet the Chairman's Title 10, USC Section 193 responsibilities while addressing emerging issues and further advancing and refining the Joint Staff processes needed to affect evolution of the CSART. The desired outcome is the improved responsiveness and readiness of the CSAs, or other similar organizations, to support the CCMDs and Services (primarily Service Components).

The Studies, Analysis and Gaming Division (SAGD) of the Force Structure, Resources and Assessment Directorate (J-8) of the Joint Staff provides wargames, tabletop exercises (TTX), studies, and analysis to help sponsors explore the range of contemporary political-military, strategic, operational and programmatic questions that confront the Department of Defense. The Chairman of the Joint Chiefs, the Vice Chairman of the Joint Chiefs, the Director of the Joint Staff, and the Director of the J-8 depend on SAGD's agility and responsiveness to develop innovative qualitative and quantitative methodologies that address a wide array of questions on the timelines required.

The Joint Staff Innovation Group (JSIG) of the Force Structure, Resources and Assessment Directorate (J-8) of the Joint Staff is comprised of operational experts pursuing new and emerging capabilities and concepts of employment/operation, assessing their effectiveness within an operational context to reshape the Joint Force. The JSIG's efforts are directed by the Vice Chairman of the Joint Chiefs of Staff. Routine actions of the JSIG explore emerging capabilities and concepts and provide forums for Services, Agencies, National Laboratories and Combatant Commands to connect and gain innovative synergy in support of the development of the future Joint Force.

The Forces Division (FD) of the Force Structure, Resources, and Assessment, J-8, provides support to the Chairman of the Joint Chiefs of Staff (CJCS) by playing a significant role in the Global Force Management (GFM) process, the Global Defense Posture process, and Force Structure assessments. The J-8 assesses joint force structure integration with joint strategy, deliberate planning, global defense posture, and current operations. The J-8 conducts assessments to understand and mitigate near-term force management risks stemming from recent and projected global operations.

The Capabilities and Acquisition Division (CAD) leads cost assessment, schedule, and performance of all major Department of Defense acquisition programs. Serves on OSD and JS issues teams to propose Program Objective Memorandum (POM) funding and integrated capability decisions for executive leaders. Assesses the ability of major acquisition programs to meeting JROC validated requirements in accordance with Title 10 USC provisions. CAD members represent JS, CCMD, and Service equities to the NSC, OSD, IC and Congress.

2.1 SCOPE

The Contractor shall provide on-site technical support services to Joint Staff, J-8 Directorate (or other Department of Defense organizations as determined and directed by contract authority) by accomplishment of described

functional tasks associated with Joint Staff's organizational structure, and other programmatic elements; and by representing DoD interests in high-level Government meetings as requested.

Work within the scope and the ceiling of this contract may be performed offsite on a limited, case-by-case basis. Offsite support will be limited to situations where physical presence in the government site is restricted or when offsite support is deemed advantageous to the Government. All offsite work requires prior written direction from the COR, who will define the authorization during and scope of each instance.

2.2 NEGLIGENT DISCHARGE OF CLASSIFIED INFORMATION (NDCI)

When information is placed on or processed on an information system with insufficient security controls to appropriately protect it (e.g., classified data on an unclassified system) there is a potential for an unauthorized disclosure. Such actions will be classified as a security violation, specifically a negligent discharge of classified information or NDCI. Contractors that cause NDCIs during the course of the contract shall be held financially liable for all actual accumulated restoration costs incurred, as described below, but not less than \$5,000 per incident. Such costs will be deducted from the contract price and are not reimbursable.

- a. Restoration costs above \$5,000 will be itemized. DISA has developed a Classified Message Incident Standard Operating Procedures (SOP) that will be followed in the event of an NDCI by the Contractor. Personally Identifiable Information (PII) incidents fall under this category. This is not an exclusive remedy (e.g., in the case of PII spillage, identity theft or other insurance may be needed to protect the individuals).
- b. NDCI Cleanup actions may include the following actions:
 - i. Server destruction
 - ii. Hard drive or other storage wipe and destruction
 - iii. Containment actions

3.0 GENERAL INFORMATION

3.1 CONTRACTOR PROGRAM MANAGEMENT

The Contractor shall provide technical program management support to the Government. The Contractor shall provide program operational support and business operations services in support of various programs' day-to-day operations and missions. The Contractor shall provide program coordination support for the development and coordination of program related assessments, studies, reports, and strategies. The Contractor shall support business operations to achieve office functionality, process, and control. This support includes schedule management support, quality control and coordination of documents, drafting business process procedures, and resource management support.

Contractor employees performing services under this contract shall be controlled, directed and supervised at all times by management personnel of the Contractor. The contractor's management shall ensure that employees properly comply with the performance standards outlined in this Performance Work Statement and as required by the Contracting Officer or the Contracting Officer's Representative (COR). Contractor employees shall perform independent of and without the supervision of any Government official. Actions of contractor employees may not be interpreted or implemented in any manner that results in any contractor employee creating or modifying Federal policy, obligating the appropriated funds of the U.S. Government, overseeing the work of Federal employees, providing direct personal services to any Federal employee or otherwise violating the prohibitions set forth in Parts 7.5 and 37.1 of the Federal Acquisition Regulation (FAR). The Government shall control access to the facility and shall perform the inspection and acceptance of completed work and tasks. The contractor shall provide the services required by the contract pursuant to the general requirements specified herein.

3.2 GOVERNMENT PROPERTY (GP)

Government Property is all property owned by the Government, including Government Furnished Property and Contractor acquired property (FAR 45.101(a))

Government Furnished Property is property in the possession of or directly acquired by the Government and provided to a Contractor for contract performance (FAR 45.101(a))

Contractor Acquired Property is property acquired, fabricated, or otherwise provided by the Contractor for Contract performance and to which the government has title (FAR 45.101(a))

Contractor Inventory is excess Contractor acquired property, Government furnished property, and any property the Government is obligated to take or has the option to take (45.101(a))

3.3 GOVERNMENT FURNISHED PROPERTY (GFP), EQUIPMENT AND SERVICES

The Government shall provide information, services, and facilities listed below.

3.3.1 Information: The Government shall provide the Contractor access to the information and information systems required to perform the tasks in this PWS and facilitate the interface of contractor personnel with other Joint Staff offices as required completing this effort.

3.3.2 Services: Utilities. All utilities in the Government's facility will be available for the contractor's use in performance of duties outlined in this PWS. The Contractor shall instruct employees in utilities conservation practices. The Contractor shall be responsible for operating under conditions that preclude the waste of utilities.

3.3.3 Facilities: The Government shall furnish the necessary workspace within the Pentagon to provide the support outlined in this PWS to include desk space, telephones, computers and other items necessary to maintain an office environment. The Program/Contract Manager shall not be required to reside within government workspace. However, the Program/Contract Manager shall, at a minimum, visit the Government workspace monthly and communicate with the Contracting Officer's Representative (COR) and the Technical Advisor (TA) regarding contract performance. The Program/Contract Manager shall be accessible via phone or email.

3.4 TRANSITION PERIOD

To minimize any decreases in productivity and to prevent possible negative impacts on additional services, the Contractor shall have all Personnel on board the very first day after the anticipated thirty (30) day Transition Period (estimated transition period, July 2026). The Contractor shall manage an overlap of operations with the replacement personnel in accomplishment of tasks beginning at the end of the contract.

3.4.1 Phase-In: The Contractor shall provide a phase-in plan with their proposal, which enables a smooth transition to replacement services for thirty (30) days prior to the start of the new contract. The Contractor shall be responsible for conducting all tasks necessary to be capable of fully performing within thirty (30) days after contract award without disruption or degradation of the mission. The Contractor shall be responsible for the coordination of all information needed to obtain appropriate access to facilities and badges required by government sites. Contractor Phase-In tasks include ensuring that sufficient personnel, that are fully trained and qualified to perform the requirements set forth in the PWS, are on hand and available to begin work on the first day after the thirty (30) day Start-Up period.

3.4.2 Phase-Out: The Contractor shall provide a phase-out plan with their proposal, which enables a smooth transition to replacement services for thirty (30) days when the contract ends (including technical data rights considerations). The plan shall provide phase-in support for up to thirty (30) days to the selected contractor if the incumbent contractor is not selected for subsequent contract. The Contractor is responsible for returning all badges and access obtained as a result of performance under the contract. Contractor Phase-Out tasks include ensuring that sufficient personnel are available to perform the requirements set forth in the PWS during the thirty (30) day Phase-Out period.

4.0 CONTRACT MANAGEMENT

The Contractor shall provide to the COR a Monthly Status Report (MSR) no later than the 10th business day of the month. The MSR provided to the COR shall contain a monthly cost report and a monthly technical report.

The monthly technical report shall identify all work performed for the previous month. It shall provide a breakdown of personnel and tasks, provide details on tasks to be completed in the future, and discuss any issues or concerns. The technical report shall also include a projection of work scheduled for the upcoming month, keyed to the contract.

The monthly cost report shall include a monthly and cumulative summary of labor expended. The summary shall include, by labor category, hours authorized, monthly and cumulative hours expended, hours remaining, billing rate, and monthly and cumulative labor costs expended. The report shall also include a detailed summary of travel, which must list the traveler's name, destination, travel dates and total travel funding authorized, expended, and remaining. The monthly cost report shall conclude with the identity of any known risk and provide an estimate of the burn rate for the effort.

4.1 PERIODIC PROGRESS MEETINGS

The Contracting Officer, COR, and other Government personnel, as appropriate, shall meet periodically with the Contractor to review the Contractor's performance. At these progress meetings, the Government shall provide feedback to the Contractor on how the Government views the Contractor's performance; and, the Contractor shall apprise the Government of problems, if any, being experienced. The Government and the Contractor shall take appropriate action to resolve outstanding issues. These meetings shall be at no additional cost to the Government.

4.2 IDENTIFICATION OF CONTRACTOR EMPLOYEES

All Contract personnel attending meetings, answering Government telephones, and working in other situations where their contractor status is not obvious to third parties, shall identify themselves as such to avoid creating an

impression in the minds of the audience that they are Government employees. Contractor personnel shall ensure that all documents or reports produced by Contractors are suitably marked as Contractor products or that Contractor participation is appropriately disclosed. Contractor personnel shall be required to obtain and wear Pentagon identification and/or badges specified in the task.

4.3 DELIVERABLES

All deliverables become the property of the United States Government. Unless otherwise stated, all deliverables will be submitted in both hardcopy and electronic media in Microsoft Word/PowerPoint/ Excel/Access/Visio format. Deliverables shall be sent to the Contracting Officer Representative (COR) and Technical Advisor (TA) as appropriate.

4.4 TRAINING REQUIREMENTS

The Joint Staff has a Joint Knowledge Online (JKO) training requirement that all contractor personnel shall adhere to. Contractor employees shall take all online training that is listed as "required" for contractor personnel. Contractors shall not take training courses labeled as "recommended." Newly awarded contracts and task orders require the contractor employees to complete all required online courses within six months, from the date of award, for the calendar year when the award was made. New contractor hires have six months from the date their JS LAN account is established to complete the mandatory online training applicable to the calendar year the LAN account was established. Only full-time contractor employees, with JS LAN accounts, fall under the required training mandate. Part-time-on-call, temporary hires, and those at locations providing occasional support via a reach-back capability shall not be required to take the training, nor allowed to invoice the Government for training taken while in this less-than-full time support capacity.

Occasionally, other training may be made available to contract personnel such as those available on an ad hoc basis through Defense Acquisition University (DAU).

Joint Travel Regulations

<https://www.defensetravel.dod.mil/site/travelreg.cfm>

6.0 REQUIREMENTS

Specific Tasks: The Contractor shall provide subject matter expertise in the following task areas: research and technical support; modeling, simulation, stimulation, and analysis support; and, interoperability, test and evaluation, trials support (specifically interoperability). The Contractor shall provide the deliverables described in Section 7 (DELIVERABLES) of this PWS for each task.

6.1 SCHEDULE

6.1.1. Kick-Off Meeting. The Contractor shall schedule and conduct a joint Government and Contractor kick-off meeting to review PWS requirements within ten (10) days after contract award.

6.1.2. Project Schedule. The Contractor shall develop and maintain a project schedule by major analytic task that shows all resource-loaded tasks, durations, dependencies, and deliverables (using PowerPoint or Excel). The Contractor shall provide the Government (COR and TA) with an updated task schedule as part of the Monthly Status Report (MSR).

6.2 COST REPORTING

6.2.1 Expenditures. The Contractor shall provide cost reporting to the COR in accordance with section 4.0 and as specified in each task within this Performance Work Statement (PWS). The reporting shall provide technical, schedule, and fiscal status by comparing planned versus actual expenditures and shall be included in the Monthly Status Report (MSR).

6.2.2 Problems and Shortfalls. The MSR shall also be used to identify potential problems. The Contractor shall identify any anticipated technical or funding shortfalls or irregularities during the specified period of performance, in writing, not later than four (4) months prior to the anticipated shortfall.

6.3 QUALITY

The Contractor shall implement a Quality Control Program (QCP) for this effort. The Contractor shall prepare and provide a Quality Control Plan to detail and describe the Contractor's framework and processes within the QCP for delivering quality products and services required by the tasks in this PWS. This QCP shall be provided to the Government within ten (10) days after contract award. The Contractor shall provide a briefing to the Government outlining the plan for implementation of the QCP for the contract tasks during the kick-off meeting. The Contractor shall ensure all work will be performed in accordance with the contract requirements and the quality control plan. The Contractor shall provide the requisite staffing and procedures to meet the quality, quantity, timeliness, responsiveness, customer satisfaction, and service delivery and performance requirements of this effort. The Contractor shall identify in the Quality Control Plan, the applicable processes and metrics used to self-assess performance, in addition to the resources to be applied to this effort. The Contractor shall include results of results of self-assessment monthly in the Monthly Status Report (MSR) and deemed acceptable by the COR of the contract.

6.4 TECHNICAL

The Contractor shall provide fully trained personnel with expertise and experience conducting research and development support; modeling, simulation, stimulation, and analysis support; and, interoperability, test and evaluation, trials support (specifically interoperability). The Contractor shall provide administrative support for wargaming planning and execution, concept design or wargaming, tabletop exercises (TTXs), studies, and analysis, and practical execution of wargames. The following requirements include efforts in Forces Division (FD); Support Agency Review and Assessment Office (SARAO); Studies, Analysis, and Gaming Division (SAGD); and Joint Staff Innovation Group (JSIG).

The Contractor shall provide personnel with a final and active (in-scope) TOP SECRET (TS) clearance based on a Single Scope Background Investigation (SSBI), Single Scope Background Periodic Reinvestigation (SBPR), or Phased Periodic Reinvestigation (PPR). Personnel in direct support of FD, SARAO, SAGD, JSIG, and CAD tasks shall possess a TS clearance with Sensitive Compartmented Information (SCI) Director of Central Intelligence Directives (DCID) 6/4 eligibility and support Special Access Program (SAP). All other personnel shall possess a TS clearance only. Foreign Nationals are prohibited from working on classified and unclassified portions of this contract

6.4.1 FORCES DIVISION

6.4.1.1 The Contractor shall provide timely supporting analyses as it relates to force management development, issues, and implementation. The analyses may be presented in the form of PowerPoint briefings, Excel spreadsheets, point papers, and information papers, as required by the Government, up to and including Top Secret, Sensitive Compartmented Information (SCI), Alternative Compensatory Control Measures (ACCM), and Special Access Programs (SAP) classification levels.

6.4.1.2 MEETINGS. The Contractor shall arrange and conduct Conference(s) and meetings on Joint military issues, up to and including Top Secret, Sensitive Compartmented Information (SCI), Alternative Compensatory Control Measures (ACCM), and SAP classification levels.

6.4.1.2.1 MEETING PREPARATION. The Contractor shall conduct a wide range of preparation activities for various conferences, meetings, and other sessions as directed by the Government. Preparation shall include such activities as compilation and review of data, analysis of data, coordination with stakeholders, scheduling of meetings, and coordination for a wide range of meeting support (such as scheduling and coordinating teleconferences or video teleconferences).

6.4.1.2.2 CONDUCTING MEETINGS. The Contractor shall conduct, and support meetings as planned on a wide variety of Joint military issues. The Contractor shall participate in additional meetings on Joint military actions and issues as directed by the Government.

6.4.1.2.3 MEETING SUMMARIES. The Contractor shall prepare and provide the Government with summary notes of meetings as required. Summaries shall synergize the highlights of meetings; shall be audience appropriate; and shall be in the Government requested format.

6.4.1.3 ALTERNATIVE ANALYTICAL APPROACHES. The Contractor shall provide analytic support, sometimes requiring the development of alternative analytical approaches to solve complex and not well-defined force management problems and other Joint issues. Associated methods and findings shall be presented by the Contractor through PowerPoint slides or through other presentation materials as required by the Government.

6.4.1.3.1 The Contractor shall demonstrate expertise in the knowledge of and application of analytic processes. Examples of analytic processes include, but are not limited to, knowledge of quantitative and qualitative approaches and understanding of the underlying fundamentals of analytic approaches.

6.4.1.3.2 The Contractor shall develop alternative analytic approaches to promote understanding of complex and often ill-defined Joint Force management challenges and problems.

6.4.1.3.3 The Contractor shall prepare written recommendations on the use and application of alternative analytical approaches for promoting understanding of Joint Force challenges and issues.

6.4.1.4 APPLICATION OF ANALYTICAL APPROACHES. The Contractor shall conduct and summarize the Analyses of Alternatives. The Analyses of Alternatives (AoA) leads to Joint Services' decisions that optimize Joint Services' outcomes. The Contractor shall present the information to the Government using PowerPoint slides (or other formats as directed by the Government).

6.4.1.4.1 The Contractor shall use appropriated analytical approaches, as required by the Government, to conduct analyses of alternatives on a broad range of Joint requirements, challenges, and issues.

6.4.1.4.2 The Contractor shall prepare and maintain analyses in accordance with approved approaches. The Contractor shall maintain, and archive analyses and associated results as required by the Government.

6.4.1.4.3 The Contractor will synergize and summarize the results of analyses as required by the Government.

6.4.1.4.4 The Contractor shall prepare presentation materials that summarize the insights, results, and findings of analyses. Presentation materials may be in presentation graphics format (i.e. PowerPoint), spreadsheets, or in written form, as required by the Government. Presentation materials shall be consistently logical, clear, understandable, and audience appropriate. Presentations shall routinely promote senior-leader decision-support.

6.4.1.4.5 The Contractor shall present materials in a logical, clear, and understandable way that is audience appropriate.

6.4.1.5 JOINT FORCE ASSESSMENTS. The Contractor shall support Joint Force assessments, as required by the Government, and develop briefing material for representing Joint Force Assessments.

6.4.1.6 COORDINATION AND RESEARCH. The Contractor shall coordinate with members of the Force Management community and research databases to obtain and verify forces related data.

6.4.1.6.1 The Contractor shall coordinate with a wide range of Joint Force stakeholders. This shall routinely include coordinating with the Office of the Secretary of Defense, across the Joint Staff, with Combatant Commands, and with the Services. Required coordination shall be through formal and informal processes.

6.4.1.6.2 The Contractor shall conduct a wide range of research on a wide range of subjects and databases.

6.4.1.7 GLOBAL POSTURE, STRATEGY, AND PLANS. The Contractor shall provide a broad range of analysis and decision-support products concerning strategy, planning, and posture.

6.4.1.7.1 The Contractor shall provide a broad range of analyses of strategy and plans actions as required by the Government.

6.4.1.7.2 The Contractor shall provide a wide variety of analytic support for review and understanding of a wide variety of global posture actions and issues. As example, this could involve support to prioritization of proposed adjustments to global posture.

6.4.1.8 FORCES DIVISION GENERAL SUPPORT. The Contractor shall provide administrative and executive support through meeting coordination in support of various Division meetings. The Contractor shall provide meeting minutes at the completion of meetings.

6.4.1.8.1 The Contractor shall provide a broad range of support in the preparation for and conduct of meetings on a broad range of Joint subjects and issues. Preparation shall include, but not be limited to, development of agenda

items, development and preparation of meeting materials, scheduling, coordinating for attendance by stakeholders, and coordination for teleconferencing or video teleconferencing.

6.4.1.8.2 The Contractor shall provide a broad range of support for a wide range of senior-leader meetings and deliberations. This shall include development of agenda items, development and preparation of meeting materials, scheduling, coordinating for attendance by stakeholders, and coordination for teleconferencing or video teleconferencing.

6.4.2 SUPPORT AGENCY REVIEW AND ASSESSMENT OFFICE (SARAO)

6.4.2.1 GENERAL SUPPORT

The Contractor shall provide support to improving the responsiveness and readiness of the CSAs and CSART process. SARAO seeks to continuously influence the CSAs to improve their responsiveness and readiness to support the Combatant Commanders and Services. Part of this effort requires SARAO to be able to identify and influence DoD processes and exploit opportunities to increase the CSA's responsiveness and readiness. An example is to identify common issues across the agencies and opportunities to leverage solutions (best practices). As the CSART process continues to evolve, SARAO also requires support to refine, improve or further define the process; develop and refine assessment criteria; ensure the CSART assessment process remains consistent with OSD and Joint Staff policy decisions and processes, particularly those related to elements of the Joint Strategic Planning System (JSPS) and areas such as readiness, readiness reporting, training, plans development and future capabilities development. The Contractor shall participate in forums to further advance and advocate the CSART process and its goals. The Contractor shall be required to conduct tasks associated with the below on various electronic media, which includes but may not be limited to web portals, share point and intellipedia (an online system for collaborative data sharing). The Contractor shall prepare briefings, memorandums, and instructions necessary to implement the evolving process and ensure the CSART stakeholders are informed of the evolving processes in accordance with the following sub-tasks:

6.4.2.1.1 PROJECT MANAGEMENT

The Contractor shall provide integrated project management of all tasks within the PWS, ensure the consistency of the assessment process, and provide recommendations on process and product improvements necessary to ensure the credibility of the CSART assessments and its process. The Contractor shall provide in the Monthly Technical Report (MTR), contractor funds expended and estimated future contract utilization and provide proposed revision to the level of effort required for each of the CSART assessment.

6.4.2.1.2 STAFFING ACTIONS

The Contractor shall review, analyze, comment upon, and draft specific written recommendations for the SARAO position on planning, doctrine, and policy documents associated with the JSPS that may contain CSA or CSART related equities. Documents to be reviewed may include, but are not limited to National Defense Strategy, Defense Planning Guidance, Guidance for Development and Employment of the Force, Joint Strategic Capabilities Plan, DoD Directives and Instructions and CJCS Instructions and Manuals.

6.4.2.2 PRE-ASSESSMENT SUPPORT

The Contractor shall provide support to the CSART pre-assessment process to facilitate planning and preparing for the conducting of the assessment.

6.4.2.2.1 PROGRESS RESULTS

The Contractor shall draft, for government approval, a POA&M for inclusion in the current CSA CSART report. The POA&M will be coordinated with the requisite agencies providing inputs and the respective OSD Principal

Staff Assistant (PSA). The Contractor shall insure inclusion of unresolved recommendations from that POA&M as issues to be assessed in the upcoming assessment.

6.4.2.2.2 PLANNING, ANALYSIS AND COORDINATING THE ASSESSMENT

The Contractor shall develop, present, and upon Government approval, execute a written assessment plan (“Assessment Methodology”) for the execution of each CSART assessment. This action includes those areas that effect how the assessment is conducted versus development of specific issues. The written plan shall include as a minimum the following:

- a. Overall plan of milestones.
- b. Recommended assessment areas derived from analysis of agency charters, Joint Strategic Capabilities Plans, JMETLs and other related and available documents.
- c. Identification of relevant strategic level guidance that may have been issued that impacts the agency, and potentially the methodology of the assessment.
- d. Coordination of assessment related visits and interviews.
- e. Organize and facilitate assessment team meeting.

6.4.2.2.3 ASSESSMENT NOTIFICATION

The Contractor shall prepare memorandums, with assessment milestones and interview schedule 45 days prior to initiation of each CSART assessment, to announce the start of each CSART assessment.

6.4.2.2.4 DRAFT IN-BRIEFINGS

The Contractor shall draft a briefing for each CSART assessment, at the start of each CSART assessment, which will include methodology to be used, team composition, status of recommendations from the previous assessment, interview schedule, topics from relevant strategic level documents, and a schedule for conducting the overall assessment.

6.4.2.3 CONDUCTING THE ASSESSMENT

The Contractor shall provide administrative, technical, and subject matter expert assistance to the Government in conducting assessments of the responsiveness and readiness of the CSAs to support the Combatant Commands, Services, Service Components, or other CSAs that are supporting those previously listed. The eight CSAs are DCMA, DIA, DISA, DHA, DLA, DTRA, NGA and NSA. CSART assessments are to be conducted biennially meaning four should be conducted every year; however, due to lengthiness of assessments and availability of Government personnel that schedule may vary. Schedules are subject to change and other studies or assessments of agency like organizations may be included. In addition, more than one agency may be included in a single assessment such as DCMA and DLA in an assessment and DIA, NGA and NSA in a single assessment.

6.4.2.3.1 INTERVIEW PREPARATION

The Contractor shall prepare questionnaires to be sent to assessment participants after being notified of the assessment starting and prior to the interviews being conducted. This information shall be collated and analyzed in a spreadsheet type document so it can be sorted in various manners (organization, rank individual, subject, rating of the CSA). In addition, the Contractor shall prepare an interview protocol prior to conducting the interview phase of the assessment process; and prior to each organization being interviewed. This shall include individuals to be interviewed based on reviewing questionnaires that have been submitted, and identification of specific areas/topics to be discussed. The Contractor shall coordinate for participants in each interview. The Contractor shall participate in each interview. The Contractor shall provide the Government a written report for each CSART assessment.

6.4.2.3.2 CSART ASSESSMENT TRAVEL, INTERVIEWS AND ANALYSIS

The Contractor shall provide for one analyst to conduct interviews, usually by travel to the appropriate Combatant Commands, CSAs, Services or subordinate commands with appropriate staff, using the prepared interview protocol. The Contractor shall maintain a written record of responses for use in post-interview analyses for report preparation. Travel shall normally require the contractor to spend one day at each of the organizations. All travel shall be preapproved by the COR. Under certain conditions, such as in response to public health emergencies, security considerations, government-directed travel restrictions, or a reduction of travel funding, virtual or telephonic interviews may be conducted in lieu of physical travel. The Contractor shall submit a written report that includes responses from the interviews to the Government once per CSART assessment.

6.4.2.3.3 REPORT PREPARATION

The Contractor shall provide an outline of findings, issues and recommendations supported by analysis from the results of the interviews and subsequent team meetings. This outline will include issues raised during the interviews, the number of respondents who reported the issues and relative importance of the issues compared to other issues based on analysis.

6.4.2.3.4 DRAFT REPORT

The Contractor shall draft an initial CSART assessment report suitable for coordination and shall coordinate the report for concurrences/non-concurrences/comments (preliminary coordination). Upon receipt of staffing comments, the Contractor shall facilitate resolution of issues raised in staffing, and upon the decision by the Government, the Contractor shall draft the final report and coordinate it. The written reports shall include the following:

- a. An assessment of the CSA's responsiveness and readiness in supporting the CCMDs and Services, particularly their respective components, identifying general findings with specific underlying issues followed lastly by specific recommendations for corrective action or remediation. Note, this is the ponderance of the report.
- b. An assessment of the CSA's participation in JSPS areas including joint readiness reporting, supporting CCMD plans development, internal CSA plans/SOPs that articulate support to the CCMDs and Services, joint lessons learned, participation in joint exercises, CCMD Integrated Priority Lists, compliance of Joint Training Guidance and development of future capabilities. Two written reports per CSART assessment shall be produced by the Contractor, this includes an initial draft and final draft as noted above.

6.4.2.4 POST ASSESSMENT ACTIONS

The Contractor shall provide general support to the CSART assessment process to facilitate execution of the assessment task IAW the following sub-tasks.

6.4.2.4.1 FINALIZE AND STAFF CSART ASSESSMENT REPORT

The Contractor shall staff the written report for formal coordination within a Joint Staff Action Processing package via ETMS2 and IAW JS Instruction 5711.01, "Editorial Guidance and Accepted Usage for Joint Staff Correspondence" and DoD Manual 5110.04 "Manual for Written Material: Examples and Reference Material" and resolve any comments noted from staffing. Due to the high level of staffing required, Service Secretary and OSD Principal Levels, the Contractor shall establish an EXCEL spreadsheet with issues or concerns by agency, and recommended ways of mitigating these issues or concerns. Then the Contractor shall facilitate final staffing of the report, with associated memorandums, for signature by the CJCS.

6.4.2.4.2 OUTBRIEFS

The Contractor shall draft briefings, papers, and presentations to convey results of the CSART assessment to the J-8, Agency Directors, and other senior leaders. The Contractor shall support SARAO in conducting out-briefings to the Joint Staff, Agency Director or representative and OSD representatives and document key discussion.

6.4.2.4.3 AFTER ACTION REVIEW (AAR)

The Contractor will solicit from CSART team members and CSART POCs and positive and negative aspects of conducting the assessment and document those results to include recommendations to act on for the next assessment. This AAR will be provided in PowerPoint format and presented to the SARAO office for consideration in conducting the next assessment.

6.4.2.4.4 ARCHIVING FILES AND UPDATING WEBSITE

The Contractor shall ensure all files necessary to document the CSART process are archived in the appropriate drives and folders, updating electronic files and SARAO website monthly. In addition, the Contractor shall ensure that any CSART electronic media or data posted on a Joint Staff website is accurate and consistent with the most recent information.

6.4.2.4.5 FORWARD CSART REPORT TO CONGRESSIONAL DEFENSE COMMITTEES

The Contractor shall develop a staffing action for signature by the CJCS or representative for forwarding the CSART report to the Congressional Defense Committees.

6.4.2.4.6 MONITOR PROGRAM OF ACTION & MILESTONES (POA&M)

The Contractor shall monitor the progress made by the CSA, Joint Staff, CCMDs, or other staff agencies and Services in resolving issues and implementing recommendations made in previous CSART assessments. The Contractor shall work with the OSD PSA to document these results in the form of a plan of action and milestones (POA&M). The Contractor shall initiate actions to obtain the updated status on each recommendation. The Contractor shall develop and maintain a spreadsheet with details on the status of implementation of recommendations, points of contact, due dates of completion or steps toward completion for each recommendation. The Contractor shall provide the Government with an updated status of these details 90 days after each assessment, or as directed by the DepSecDef, and subsequent 90-day updates, or again as directed by the DepSecDef thereafter and distribute such documents to the CCMDs and Services.

6.4.2.4.7 ESTABLISH & MAINTAIN ASSESSMENT TRENDS

The Contractor shall establish and maintain assessment trends for each agency and across all agencies, documenting issues that recur and associated recommendations and mitigating actions. This will be documented in an EXCEL SPREADSHEET and updated after each assessment and POA&M update. The Contractor will prepare a briefing documenting this analysis.

6.4.3 STUDIES, ANALYSIS, AND GAMING DIVISION (SAGD)

6.4.3.1 ADMINISTRATIVE SUPPORT FOR WARGAME PLANNING AND EXECUTION

The Contractor shall continually support the SAGD Game Directors through administrative planning for wargames, tabletop exercises, studies, and analysis(games); and, through participation in information exchanges. These Joint and Coalition (including NATO) games shall be executed at levels up to and including TS-SCI, FP-ACCM, and SAP. The Contractor shall operate as part of a team in SAGD and therefore shall be able to provide support in a collaborative and timely manner. The Contractor shall leverage the full suite of resources available to the Joint Staff for producing visual aids.

6.4.3.1.1 In administrative support for wargames and TTXs, the Contractor, as part of a team, shall develop methodologies, produce visual aids, develop data collection techniques, track event participation, and verify clearance of participants.

6.4.3.1.2 During the conceptual design stage of each wargame and TTX, the Contractor, as part of a team, shall: identify key variables for experimentation; develop courses of action and scenario elements to support wargames and TTXs; and articulate the advantages and disadvantages of each suggested wargame and TTX approach to the Game Director, SAGD Division Chief, and sponsors.

6.4.3.1.3 For all SAGD Operational-Level Wargames, the Contractor, as part of a team, shall develop sound methodologies tailored to the needs of specific games; and maintain current game materials (including, but not limited to, developing read-aheads, maps, force lists, and force icons for game relevance) for each individual game. The Contractor, as a team member of the SAGD team, shall maintain adequate knowledge to intelligently discuss the merits of various approaches regarding specific games with SAGD colleagues and stakeholders.

6.4.3.1.4 The Contractor shall assist SAGD with Wargaming Analysis Working Group (AWG) Subcommittee and Defense Wargaming Alignment Group (DWAG) Steering Committee responsibilities. Duties include: the Contractor coordinating Secure Video Teleconferences; the Contractor assisting with developing meeting agendas; the Contractor producing and publishing meeting minutes after each meeting; and the Contractor corresponding with the broader DWAG regarding ongoing and upcoming DWAG business.

6.4.3.2 CONCEPTUAL DESIGN OF WARGAMES, TABLETOPS, STUDIES, AND ANALYSIS

Within the limitations imposed by substantive and administrative constraints, the Contractor, as part of a team, shall apply creative solutions that meet sponsor objectives and are grounded in prior experience with running wargames, TTXs, studies, and analysis.

6.4.3.2.1 The Contractor, as part of a team, shall propose alternative approaches to the wargame development without showing preference to any one approach; and present the Government with their proposed approaches through a PowerPoint slide presentation.

6.4.3.2.2 When assisting with the development of the Conceptual design of wargames, TTXs, studies, and analysis the Contractor shall: scope larger problems to limited analytical questions; revise wargame designs to incorporate sponsor changes to allotted event times; and produce games on short notice (within days) when required. Contractor shall provide substantial contribution to the wargame development, evident in the wargame design product and documented in the game day presentation materials and post-game reports.

6.4.3.2.3 Due to the sensitivity of many game topics, it is unlikely the Contractor's Site Manager will see many of the details. Therefore, game design deliverables can be described generically in official reports but will require SAGD Game Director validation by the sponsor responsible for the project.

6.4.3.3 PRACTICAL EXECUTION OF WARGAMES, TABLETOPS, STUDIES, AND ANALYSIS

6.4.3.3.1 The Contractor shall conduct the full range of duties on game day including but not limited to: escorting cleared participants within the Pentagon; transcribing detailed notes of the events; facilitating working groups and wargame teams; reconfiguring and preparing wargame spaces for follow-on uses; contributing to post-game SAGD office-wide after-action reports; and, supporting SAGD executed off-site events. The Contractor shall provide the Government with proper documentation of wargame proceedings in the form of transcribed notes and documentation of the quality of support the Game Director received.

6.4.3.3.2 The contractor shall serve as wargame facilitator, leading conversation during games and working with the game director to execute director's intent. Because facilitation is a critical component to SAGD's

mission, the Contractor shall attend rehearsals and accept constructive criticism from the Government of their techniques, to ensure the Contractor upholds SAGD facilitation standards.

6.4.3.4 DETAILED REPORTING ON WARGAMES, TABLETOPS, STUDIES, AND ANALYSIS

6.4.3.4.1 Detailed reporting of wargames shall require the Contractor to iterate repeatedly on draft quick look reports within one week of game completion. Iterations shall require the Contractor to consolidate office post-event after-action-reports, participation in drafting, and repeated editing of drafts on very short notice. The SAGD Division Chief retains final approval authority on all quick look reports.

6.4.3.4.2 The Contractor shall, as part of the game team, contribute to the completion of final game reports, due one month after game completion, where applicable. Game reports shall follow the SAGD standard and be subject to quality review by the Game Director and Division Chief.

6.4.3.5 COMPARATIVE ANALYSIS OF WARGAMES AND TABLETOPS

During comparative wargame analysis, the Contractor shall study and evaluate the findings of wargames, including those not produced in J8 SAGD. The contractor shall develop study plans and methods for comparing across wargames, tabletops, analyses and studies that may not have been coordinated in advance.

6.4.3.5.1 The Contractor shall scrutinize findings and data and produce consolidated written reports (in MS Word) emphasizing synthesis of findings and commonalities in results. In the written report, the Contractor shall highlight innovative game designs, operational concepts, and explicitly state assumptions required to generally accept the consolidated findings.

6.4.3.5.2 The Contractor shall use data from the DoD Wargaming Repository to identify wargames of interest and gather additional details, to include event reports from event sponsors (or providers) as necessary. The Contractor shall, under SAGD direction, gather extensive data on non-SAGD wargames to feed comparative wargame studies (stored on the appropriate system) that inform the Defense Wargame Alignment Group, the AWG Subcommittee, and the wider Department.

6.4.3.6 GENERAL ANALYTIC SUPPORT

6.4.3.6.1 The Contractor shall provide support to other general analytic and wargaming efforts, to include coordinating and integrating the results of studies and assessments into larger analytic and wargaming efforts. This shall include the researching, assessment, coordination and analysis of Joint Staff Action Packages as well as other Joint Staff, OSD, CCMD, or Service analyses and assessments. In support of those duties, the Contractor shall be required to prepare meeting minutes, after action reports and material distribution. The Contractor shall provide input to the Government for the final study or assessment report, for all other general analytic and wargaming efforts.

6.4.3.6.2 The scope of the Contractor's work shall be limited to working within existing applications, software, databases, and procedures for data and document storage, comparison and search.

6.4.4 JOINT STAFF INNOVATION GROUP (JSIG)

6.4.4.1 The Contractor shall provide detailed reporting of wargames. These reports shall require the Contractor to compile draft outcome papers within 72hrs of game completion.

6.4.4.1.1 The Contractor shall provide iterations reports that consolidate office post-event after-action-reports. The Contractor shall participate in drafting, and repeated editing of drafts on very short notice. The JSIG Director retains final approval authority on all briefings and reports.

6.4.4.1.2 The Contractor shall, as part of the game team, assist in the completion of the Final Game Reports, due within one (1) month of the game completing. Game Reports shall follow the established JSIG standard and shall be reviewed by the JSIG Director for compliance. Deliverables include event briefings, completed reports written in MS word, associated PowerPoint slides, bibliographies, and any other material necessary for report completion. Deliverables shall be stored on the appropriate system and be validated for quality by the JSIG Director. Deliverables may not be releasable to higher echelons of contractor's management.

6.4.4.2 The Contractor shall, in participation with the JSIG Operational Planning Team (OPT), pursue innovative new capabilities and concepts that support their employment; and consider the application of current capabilities in innovative ways. This shall include participating in working groups and assessment teams.

6.4.4.3 The Contractor shall support the JSIG OPT's preparation to participate in innovative capability and concept wargames; and shall be an active participant in the wargame.

6.4.4.4 The Contractor shall support JSIG leadership with administrative planning for wargames, tabletop exercises or crowd sourcing events. These events shall be executed at levels up to and including TS-SCI, FP-ACCM. These efforts shall, at a minimum, consist of the production of visual aids; data collection technique development; and event participation tracking and clearance verifications.

6.4.4.4.1 The Contractor shall operate as part of a team in JSIG and therefore shall be required to provide support in a collaborative and timely manner.

6.4.4.4.2 The Contractor shall be capable of learning and leveraging the full suite of resources available to the Joint Staff for producing visual aids. Deliverables shall include properly archived visual aids and documentation of data collection techniques and participants.

6.4.4.4.3 The Contractor's administrative planning for wargames and TTXs shall include a range of project management tasks including: developing adjudication methodologies; producing of visual aids, data collection technique development; and event participation tracking and clearance verification.

6.4.4.4.4 Conceptual design shall include the Contractor consulting closely with JSIG colleagues to identify key variables for experimentation, develop courses of action and scenario elements to support wargames and TTXs, and articulate the advantages and disadvantages of each approach to the JSIG Leadership.

6.4.4.5 The Contractor shall conduct the full range of required duties on game day including, but not limited to, escorting cleared participants within the Pentagon, transcribing detailed notes of the event, facilitating working groups and wargame teams, reconfiguring and preparing wargame spaces for follow-on uses, and contributing to post-game JSIG office-wide after-action reports. Deliverable shall include proper documentation of wargame proceedings in the form of transcribed notes and other documentation. Deliverables shall not be released to higher echelons of contractor's management.

6.4.5 CAPABILITIES ACQUISITION DIVISION (CAD)

6.4.5.1 The Contractor shall provide timely supporting analyses as it relates to Joint Force capabilities acquisition. The analyses shall be presented in the form of PowerPoint briefings, Excel spreadsheets, point papers, and information papers, as required by the Government, up to and including Top Secret, Sensitive Compartmented Information (SCI), Alternative Compensatory Control Measures (ACCM), and Special Access Programs (SAP) classification levels.

6.4.5.2 MEETINGS. The Contractor shall arrange and conduct Conference(s) and meetings on Joint military issues, up to and including Top Secret, Sensitive Compartmented Information (SCI), Alternative Compensatory Control Measures (ACCM), and SAP classification levels. The Contractor shall anticipate 25-50 meeting per year

occurring at differing intervals based on mission requirements (e.g. weekly, monthly, quarterly, bi-annually, and/or annually).

6.4.5.2.1 MEETING PREPARATION. The Contractor shall conduct a wide range of preparation activities for various conferences, meetings, and other sessions as directed by the Government. Preparation shall include such activities as compilation and review of data, analysis of data, coordination with stakeholders, scheduling of meetings, and coordination for a wide range of meeting support (such as scheduling and coordinating teleconferences or video teleconferences).

6.4.5.2.2 CONDUCTING MEETINGS. The Contractor shall conduct, and support meetings as planned on a wide variety of Joint military issues. The Contractor shall participate in additional meetings on Joint military actions and issues as directed by the Government.

6.4.5.2.3 MEETING SUMMARIES. The Contractor shall prepare and provide the Government with summary notes of meetings as required. Summaries shall synergize the highlights of meetings; shall be audience appropriate; and shall be in the Government requested format. Specified format shall be provided and include Executive Summaries, Meeting Minutes and Information Papers.

6.4.5.3 ACQUISITION ANALYSIS. The Contractor shall service as an acquisition analyst on a team of experienced military and civilian acquisition professionals responsible for developing analytical products to inform and provide best military advice to Joint Staff leadership on acquisition matters. The Contractor shall perform and summarize cost, schedule and performance analyses, demonstrating and applying expertise in the DoD requirements generation and approval process, as well as the PPBE budgeting/resourcing process.

6.4.5.3.1 The Contractor shall develop, organize and maintain a comprehensive file of information products for assigned DoD programs to include briefings, information papers, decision briefs, decision memoranda, and emails in a specified shared drive folder and/or Share Point site. The Contractor shall accomplish this IAW CJCSM 5760.01A VOL 1 (Joint Staff and Combatant Command Records Management Manual: Volume 1 Procedures) and CJCSM 5760.01A, VOL II (Joint Staff and Combatant Command Records Management Manual: Volume II – Disposition Schedule). The purpose of this file is to facilitate consistent and effective communication with stakeholders, to include Joint Staff, Component Acquisition Executives and OSD and to provide continuity across changing Action Officers. The Contractor shall be responsible for at least 15 programs, but no more than 30 programs. Workload balancing is provided by the Division Chief.

6.4.5.3.2 The Contractor shall conduct assigned acquisition analyses identifying viable courses of action; assessing cost, schedule and performance risk associated with courses of action; and identifying a recommended course of action with compelling rationale. Analyses shall be documented by written products; to include executive summaries, information papers and Power Point briefings as required, up to and including Top Secret, Sensitive Compartmented Information (SCI) that informs recommendations for senior leader decision making.

6.4.5.3.3 The Contractor shall monitor and, when necessary, attend critical path activities (e.g. Milestone Decisions, Configuration Steering Boards, Overarching Integrated Product Teams, Test Events, etc.) providing proactive analysis to advise Joint Staff leadership in the oversight of assigned programs. When attending critical path meetings, the Contractor shall prepare a memorandum for record documenting attendees, key elements of discussion, findings, decision and recommendations. The memorandum for record shall be added to the appropriate program file.

6.4.5.3.4 The Contractor shall contribute to analysis of the military industrial base capability and capacity. Deliverables shall include executive summaries, information papers, Power Point briefings, and Joint Staff Action Processing packages (1-5 per month, IAW JSG 5711, dtd 26 April 2013, p. D-2 and JSI 5711.01E, Enclosure B, Para 1a, 5.a.1).

6.4.5.3.5 The Contractor shall develop analytic products, contributing to the Division-wide effort that highlights the critical linkage between acquisition, resourcing and requirements. Deliverables shall include executive summaries, information papers, Power Point briefings, and Enterprise Task Management Software Solution packages (10-20 per month).

6.4.5.3.6 The Contractor shall foster and maintain productive, cooperative relationships with all acquisition stakeholders to include Joint Staff, Component Acquisition Executive Staff, OSD and Industry to assist in monitoring the performance and to provide professional military advice on assigned programs to Joint Staff Senior Leadership.

6.4.5.3.7 The Contractor shall review, analyze, comment upon, and draft specific written recommendations for the JS position on policy documents associated with capabilities and acquisition topics. Documents to be reviewed may include, but are not limited to National Defense Strategy, Defense Planning Guidance, JCIDS manuals, Joint Strategic Capabilities Plan, DoD Directives and Instructions and CJCS Instructions and Manuals.

6.4.6 JOINT STAFF ANALYTICS AND ASSESSMENT SUPPORT

This is an optional task that will only be exercised if specific funding is provided. Funding for this may be identified internally through the Joint Staff's Program Objective Memorandum (POM) or Future Years Defense Program (FYDP) cycles, or it may be provided externally by other Department of Defense (DoD) agencies, Services, or Combatant Commands ("external participants") seeking to leverage this contract for collaborative analytic efforts.

This additional support may encompass a range of specific, detailed project or program-level analytics, strategic, technical, managerial efforts to enhance the Joint Staff's mission. When exercised, analyses shall be conducted independently by the Joint Staff or collaboratively with the external participants providing the funding. All work under this optional task may be subject to tight suspense timelines.

Each completed project executed under this optional task shall culminate in the delivery of a formal Technical Report as detailed in the deliverables table in Section 7.0 of the PWS.

6.4.6.1 The scope of the Contractor's work shall be limited to working within existing applications, software, databases, and procedures for data and document storage, comparison and search.

6.4.6.2 The Contractor shall provide support to other general analytic and assessment efforts, to include the researching, assessment, coordination and analysis of Joint Staff, OSD, CCMD, or Military Service initiatives. In support of those duties, the Contractor shall be required to prepare meeting minutes, after action reports and material distribution. The Contractor shall provide input to the Government for the final study or assessment report, for all other general analytic and assessment efforts.

6.4.6.3 The Contractor shall provide a broad range of support for a wide range of senior-leader meetings and deliberations. This shall include development of agenda items, development and preparation of meeting materials, scheduling, coordinating for attendance by stakeholders, and coordination for teleconferencing or video teleconferencing.

6.4.6.4 The Contractor shall provide timely supporting analyses as it relates to force management development, issues, and implementation. The analyses may be presented in the form of PowerPoint briefings, Excel spreadsheets, point papers, information papers, or studies as required by the Government, up to and including Top Secret, Sensitive Compartmented Information (SCI), Alternative Compensatory Control Measures (ACCM), and Special Access Programs (SAP) classification levels.

6.4.6.5 The Contractor shall review, analyze, comment upon, and draft specific written recommendations for the organization's position on planning, doctrine, and policy documents associated with the Joint Strategic Planning

System (JSPS) that may contain organizational equities. Documents to be reviewed may include, but are not limited to, the Quadrennial Defense Review, Defense Planning Guidance, Guidance for Development and Employment of the Force, Joint Strategic Capabilities Plan, DoD Directives and Instructions and CJCS Instructions and Manuals.

6.4.6.6 The Contractor shall facilitate integration of strategic guidance by reviewing, analyzing and documenting guidance affecting the organization, including documents such as the Quadrennial Defense Review, Guidance for Development and Employment of the Force, Capability Gap Analysis, National Defense Authorization Acts, etc.

6.4.6.7 The Contractor shall develop, organize and maintain a comprehensive file of information products for assigned DoD programs to include briefings, information papers, decision briefs, decision memoranda, and emails in a specified shared drive folder and/or Share Point site.

6.4.6.8 The Contractor shall develop alternative analytic approaches to promote understanding of complex and often ill-defined Joint Force management challenges and problems.

6.4.6.9 The Contractor shall develop and implement methodologies to conduct and summarize the Analyses of Alternatives. The Analyses of Alternatives (AoA) leads to Joint Services' decisions that optimize Joint Services' outcomes. The Contractor shall present the information to the Government using PowerPoint slides (or other formats as directed by the Government).

6.4.6.10 The Contractor shall coordinate with a wide range of Joint Force stakeholders. This shall routinely include coordinating with the Office of the Secretary of Defense, across the Joint Staff, with Combatant Commands, and with the Services. Required coordination shall be through formal and informal processes.

6.4.6.11 The Contractor shall prepare presentation materials that summarize the insights, results, and findings of analyses. Presentation materials may be in presentation graphics format (i.e. PowerPoint), spreadsheets, or in written form, as required by the Government. Presentation materials shall be consistently logical, clear, understandable, and audience appropriate. Presentations shall routinely promote senior-leader decision-support.

6.4.7 JOINT STAFF OPERATION TASKING FOCUS

The contractor shall provide comprehensive support to the J-8 Directorate, encompassing analytical support, administrative assistance, and security/facilities management for designated spaces. This support includes, but is not limited to, task management, data analysis, and ensuring the secure and efficient operation of designated facilities.

6.4.7.1 Security and Wargame Suite Management (SCIF Support) The contractor shall provide administrative and operational support for a high-traffic Sensitive Compartmented Information Facility (SCIF) wargaming suite. Responsibilities include:

- **Security Support:** Assist with maintaining SCIF security in accordance with Joint Staff and Department of Defense regulations. This includes supporting security documentation management, such as assisting with SCIF accreditation packages, managing visitor logs, and verifying security clearances. The contractor will also assist with escorting personnel within the SCIF as needed.
- **Facilities Management:** Assist with the scheduling and coordination of room usage for wargaming events and planning meetings. This includes supporting the setup of Audio/Visual (A/V) equipment, scheduling Video Teleconferences (VTCs), and coordinating with sponsor security contractors as required.

- **Wargame Suite Management:** Assist in executing and hosting SCIF wargaming suite events with senior leader attendance (General/Flag Officers, SES, up through Departmental Secretaries) for Joint Staff, Combatant Commands and Interagency to include NSC, as well as numerous planning meetings.
- **Technical Support Assistance:** Provide day-to-day support related to ongoing technology upgrades and the implementation of new security regulations within the suite. This includes assisting with inventory management, troubleshooting basic technical issues, and documenting system configurations.

6.4.7.2 Analytical Support:

The contractor shall provide analytical support to various J-8 initiatives, including:

- **Data Collection and Analysis:** Gather data from various sources and assist in analyzing it to identify trends, patterns, and potential issues relevant to J-8's mission.
- **Report Preparation:** Assist in the preparation of reports, briefings, and presentations based on data analysis. This includes formatting documents, creating charts and graphs, and ensuring accuracy of information.

6.4.7.3 Task Management Support (ETMS2 Exposure):

The contractor shall assist with task management within the J-8 Directorate, utilizing the Enterprise Task Management Software Solution (ETMS2) under the guidance of senior personnel. This will provide exposure to the ETMS2 system and J-8 tasking processes. Responsibilities include:

- **Task Tracking:** Assist in tracking the status of assigned tasks within ETMS2, monitoring deadlines, and providing updates to senior personnel.
- **Data Entry:** Accurately enter task information into ETMS2, ensuring completeness and accuracy of data.
- **Document Management:** Organize and maintain task-related documentation within ETMS2.

6.5 REPORTING

6.5.1 The Contractor shall maintain an active file of all contract deliverables in one location accessible to the COR and TA for surveillance purposes.

6.5.2 The Contractor shall maintain and support the maintenance of accurate files of documentation, records, and reports in accordance with CJCSM 5760.01A VOL 1 (Joint Staff and Combatant Command Records Management Manual: Volume 1 Procedures) and CJCSM 5760.01A, VOL II (Joint Staff and Combatant Command Records Management Manual: Volume II – Disposition Schedule).

6.6 ON-BOARDING AND OFF-BOARDING

6.6.1 Subject to Government review and control, the Contractor shall develop an In-processing Procedures for all covered contracted personnel, documented in a Standard Operating Procedure, provided to the COR within 10 days after contract award.

6.6.2 The In-processing SOP shall include:

- The procedure the Contractor shall use for completing the Pre-Arrival Requirements Checklist form provided by the Government.
- The procedure the Contractor shall use for getting new employees to complete the Cyber Awareness training; complete the SAAR Form for Network Access (both SIPR and NIPR); sign the JSP/AUP

User Agreement; sign the required NATO Briefing form; and any other initial requirements for in processing.

- The procedure the Contractor shall use for checking in new contracted employees on their first day of work at the Pentagon.
- The procedure the Contractor shall use for completing the Joint Staff Contractor In-processing Checklist for each new employee.
- Any other in-processing procedures the Contractor deems necessary for new employees.

7.0 DELIVERABLES

Deliverable	PWS Paragraph	Transmittal Form and Quantity	Schedule
Monthly Status Report (MSR) Cost Report / Technical Report	4.0/6.2.1 / 6.2.2	Electronic /paper copy	Monthly (10 th business day of the month)
Kick-off Meeting	6.1.1 / 6.3	Electronic /paper copy	Within 10 days after contract award
Project Schedule	6.1.2	Electronic /paper copy	Monthly
Quality Control Plan	6.3	Electronic /paper copy	Within 10 days after contract award
Meeting Preparation	6.4.1.2.1 / 6.4.1.8/ 6.4.1.8.1/ 6.4.5.2.1 / 6.4.6 / 6.4.7.1	Electronic /paper copy	Upon Government request
Meeting Summaries	6.4.1.2.3 / 6.4.1.8 / 6.4.5.2.3 / 6.4.6 / 6.4.7.1	Electronic /paper copy	After each meeting supported
Forces Division Power Point Slides, Excel and Word documents	6.4.1.1 / 6.4.1.3 / 6.4.1.4 / 6.4.1.5 /6.4.1.4.4/ 6.4.1.7	Electronic /paper copy	Upon Government request
Staffing Actions	6.4.2.1.2 / 6.4.5.3.7	Electronic /paper copy	IAW staffing suspense's
Progress Results	6.4.2.2.1	Electronic/paper copy	For each CSART assessment at the start
Planning, Analysis and Coordinating the Assessment	6.4.2.2.2	Electronic/paper copy	For each CSART assessment 60 days prior to the start of each CSART assessment
Assessment Notification with Assessment Milestones	6.4.2.2.3	Electronic /paper copy	For each CSART assessment 45 days prior to initiation of each CSART assessment

Deliverable	PWS Paragraph	Transmittal Form and Quantity	Schedule
Draft In-briefing	6.4.2.2.4	Electronic /paper copy	For each CSART assessment 14 days prior to the in-briefing
Interview Preparation	6.4.2.3.1	Electronic/paper copy	For each CSART assessment 14 days prior to interviews
CSART Assessment Travel, Interviews and Analysis	6.4.2.3.2	Electronic/paper copy	For each CSART assessment 14 days after conclusion of interviews
Report Preparation	6.4.2.3.3 / 6.4.7.1-6.4.7.3	Electronic/paper	For each CSART assessment 21 days after conclusion of Interviews and Analysis
Draft Report	6.4.2.3.4	Electronic/paper	For each CSART assessment 15 days after report preparation
Finalize and Staff CSART Assessment Report	6.4.2.4.1	Electronic /paper copy	For each Final CSART Assessment Report 15 days after draft report completed (staffing and inclusion of comments)
Out-Briefing for each CSART Assessment	6.4.2.4.2	Electronic /paper copy	Prepare one out-briefing per assessment
After Action Review (AAR)	6.4.2.4.3	Electronic /paper copy	Prepare one AAR per CSART Assessment 30 days after end of assessment
Archiving Files and Update Website	6.4.2.4.4	Electronic Files/website	After each CSART Assessment 30 days after end of assessment
Develop Staffing Package to Forward CSART Report to Congressional Defense Committees	6.4.2.4.5	Electronic copy	After each CSART Assessment 30 days after completion of assessment
Monitor Plan of Action & Milestones (POA&M)	6.4.2.4.6 / 6.4.6 / 6.4.7.1	Electronic /paper copy	As directed by SecDef/DepSecDef for each CSART Assessment
Establish & Maintain Assessment Trends	6.4.2.4.7	Electronic /paper copy	Update at the end of each CSART Assessment 45 days after each assessment
Final Game Report	6.4.4.1.2	Electronic /paper copy	Monthly
Conceptual Design of TTXs/Wargames	6.4.3.2.1-6.4.3.2.3	Electronic /paper copy	Monthly

Deliverable	PWS Paragraph	Transmittal Form and Quantity	Schedule
Practical Execution of TTXs/Wargames	6.4.3.3.1-6.4.3.3.2 / 6.4.6 / 6.4.7.1	Electronic /paper copy	Monthly
Administrative Reports for TTXs	6.4.3.1.1-6.4.3.1.3/6.4.4.5	Electronic /paper copy	Monthly
Detailed Reporting on TTXs/Wargames	6.4.3.4.1-6.4.3.5.2	Electronic /paper copy	Monthly
Defense Wargaming Alignment Group	6.4.3.1.4	Electronic /paper copy	Monthly
General Analytic Support	6.4.3.6 / 6.4.6 / 6.4.7.1	Electronic /paper copy	Monthly
Acquisition Support Analyses	6.4.5.1 / 6.4.5.3	Electronic /paper copy	Upon Government request
File of Information Products	6.4.5.3.1 / 6.4.6 / 6.4.7.1	Electronic / paper copy	Filed within 2 weeks of becoming available
In-Processing Standard Operating Procedure (SOP)	6.6.1 / 6.6.2	Electronic /paper copy	Within 10 days after contract award
Trip Reports	8.5	Electronic /paper copy	Within 10 working days after travel

8.0 TRAVEL

All travel required for tasks assigned under this contract shall be conducted in accordance with rules set forth for temporary duty travel in FAR 31.205-46, "Travel Costs and the Joint Travel Regulations (JTR)" and shall be pre-approved by the COR.

Travel performed for personal convenience and daily travel to and from work at contractor's facility (including parking) will not be reimbursed.

8.1 Performance under this contract may require travel by contractor personnel. If travel, domestic or overseas, is required, the contractor is responsible for making all needed arrangements for its personnel. Estimated annual travel requirement by Location / Duration / Number of Trips / Number of Persons:

FORCES DIVISION (FD) ESTIMATED TRAVEL:

Norfolk, VA / 3 Days / 2 Trips / 1 Person

SUPPORT AGENCY REVIEW AND ASSESSMENT OFFICE (SARAO) ESTIMATED TRAVEL:

Tampa, FL / 2 Days / 4 Trips / 1 Person
Miami, FL / 1 Day / 4 Trips / 1 Person
Omaha, NE / 1 Day / 4 Trips / 1 Person
Colorado Springs, CO / 1 Day / 4 Trips / 1 Person
Honolulu, HI / 2 Days / 4 Trips / 1 Person
Stuttgart, Germany / 2 Days / 4 Trips / 1 Person
St. Louis, MO / 1 Day / 4 Trips / 1 Person
Molesworth, United Kingdom / 2 Days / 2 Trip / 1 Person

JOINT STAFF INOVATION GROUP (JSIG) ESTIMATED TRAVEL:

Tampa, FL / 2 Days / 2 Trips / 1 Person
Miami, FL / 1 Day / 2 Trips / 1 Person
San Diego, CA / 4 Days / 1 Trip / 1 Person
Colorado Springs, CO / 3 Days / 2 Trips / 1 Person

STUDIES ANALYSIS AND GAMING DIVISION (SAGD) ESTIMATED TRAVEL:

Suffolk, VA / 4 Days / 2 Trips / 2 People

8.2 The Contractor shall be required to travel as specified in each individual task. The number of trips and types of personnel traveling shall be limited to the minimum required to accomplish work requirements and shall be coordinated with the COR. All travel by contractor personnel shall be approved in advance by the COR. The government will fund based on the Government's estimate of anticipated travel expenses.

8.3 Costs for transportation shall be based upon mileage rates, actual costs incurred, or a combination thereof, provided the method used results in a reasonable charge. Travel costs will be considered reasonable and allowable only to the extent that they do not exceed on a daily basis, the maximum per diem rates in effect at the time of the travel. The Joint Federal Travel Regulations (JFTR), while not wholly applicable to contractors, shall provide the basis for the determination as to reasonable and allowable. Maximum use is to be made of the lowest available customary standard coach or equivalent airfare accommodations available during normal business hours. Using Government funds to pay for premium travel (including first and business class) is not allowable unless specifically authorized. Exceptions for the use of premium travel shall be approved in writing by the COR prior to travel.

8.4 Prior to incurring necessary travel meeting the above requirements, the contractor shall submit a travel request for advance review and consideration for approval by the authorized Government appointee (Contracting Officer, Contracting Officer Representative, or designee) no later than ten (10) calendar days prior to the proposed travel start date. Travel costs that have not been approved in advance may not be paid by the Government.

Travel requests shall include the following:

- Purpose/objective, expected outcome
- Dates of travel, locations
- Proposed itinerary
- Proposed meeting/activities agenda
- Names of each traveler
- Any Government support required

8.5 The contractor shall prepare a trip report for the COR and TA approval no later than 5 business days following the conclusion of the trip, providing actual costs and a description of activities conducted on the trip.

9.0 TECHNICAL DATA AND SOFTWARE RIGHTS

NON-COMMERCIAL TECHNICAL DATA

The Government's rights in non-commercial technical data and software deliverables shall be governed by DFARS 252.227-7013 and DFARS 252.227-7014, respectively.

COMMERCIAL TECHNICAL DATA

The Government's rights in commercial technical data shall be governed by DFARS 252.227-7015. Because the Government's rights in commercial software are governed by the licensor's commercial software license agreements (unless the license terms are inconsistent with Federal procurement law or do not otherwise satisfy user needs), the Offeror's proposal shall include all applicable commercial software license agreements related to commercial software deliverables.

10.0 SECURITY REQUIREMENTS

Security requirements in the performance of this contract shall be maintained in accordance with (IAW) DFARS 252.204-7005 (Oral Attestation of Security Responsibilities), and FAR 52.204-2 (Security Requirements). This clause involves access to information classified “Confidential,” “Secret,” or “Top Secret” and requires contractors to comply with: (1) The Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DoD 5220.22-M); (2) any revisions to DOD 5220.22-M, notice of which has been furnished to the contractor. The contract document shall be unclassified. The Contractor shall meet the security requirements as provided in the DD254.

10.1 CLEARANCE LEVEL

All contractor personnel performing work on this contract shall possess a current Top Secret (TS) Clearance based on a Single Scope Background Investigation (SSBI) completed within the last 5 years with Sensitive Compartmented Information (SCI) eligibility. The Government may conduct analyses at levels up to the Top Secret, Special Access Program (SAP), Special Access Required (SAR), Sensitive Compartmented Information (SCI), and/or Focal Point/Alternative Compensatory Control Measures TS/SAP/SAR/SCI, FP/ACCM) level for joint and coalition forces (including NATO); therefore, the Contractor shall be prepared to support these potential efforts, at the appropriate level. The Contractor shall be responsible for obtaining all necessary security clearances in accordance with DoD Manual 5220.22M, “National Industrial Security Program Manual” (NISPOM) (Note: The NISPOM may be downloaded from the Defense Security Service Website at www.dss.mil/isec/nispom). Specific security details for off-site personnel associated with this task order will be provided in each individual task.

During the performance of this contract, the Contractor may encounter information that is sensitive in nature. Therefore, contractor employees associated with this contract shall sign the appropriate Government non-disclosure statement prior to beginning work. Individuals working with SAPs on this contract are subject to and must be willing to submit to an initial and random counterintelligence polygraph at the Government’s expense. The requirement to support joint and coalition analysis (including NATO) at levels up to TS/SAP/SAR/SCI, and FP/ACCM control measures apply to all tasks.

10.2 FACILITY CLEARANCE

The Contractor shall possess or be eligible to receive and maintain a Top Secret (TS) facility clearance from the Defense Security Service as verified in the Industrial Security Facility Database at time of proposal submission.

10.3 PHYSICAL SECURITY

The contractor shall be responsible for safeguarding all Government information or property provided for contractor use. At the close of each work period, Government information, facilities, equipment, and materials shall be secured as specified. Contractor personnel shall be required to obtain and maintain security badges and to adhere to Government security requirements.

10.4 LOCK COMBINATIONS

The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having

access to the combinations no longer have a need to know such combinations. These procedures shall be included in the Contractor's Quality Control Plan.

10.5 CYBERSECURITY/INFORMATION TECHNOLOGY (IT) TRAINING

All contractor employees and associated sub-contractor employees must complete the DoD Cybersecurity awareness training before issuance of network access and annually thereafter. All contractor employees working Cybersecurity/IT functions must comply with DoD training requirements in DoDD 8140.01 and DoD 8570.01-M (Ch4) within six months of appointment to Cybersecurity/IT functions.

10.6 CYBERSECURITY/INFORMATION TECHNOLOGY (IT) CERTIFICATION

Per DoD 8570.01-M (Ch4) and DFARS 252.239.7001, the contractor employees supporting Cybersecurity/IT functions shall be appropriately certified upon contract award. The baseline certification as stipulated in DoD 8570.01-M (Ch4) must be completed upon contract award.

10.7 COMMON ACCESS CARD (CAC) REQUIREMENT FOR CONTRACTOR PERSONNEL

Before CAC issuance, the contractor employee requires, at a minimum, a favorably adjudicated National Agency Check with Inquiries (NACI) or an equivalent or higher investigation in accordance with Army Directive 2014-05. The contractor employee will be issued a CAC only if duties involve one of the following: (1) Both physical access to a DoD facility and access, via logon, to DoD networks on-site or remotely; (2) Remote access, via logon, to a DoD network using DoD-approved remote access procedures; or (3) Physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. At the discretion of the sponsoring activity, an initial CAC may be issued based on a favorable review of the FBI fingerprint check and a successfully scheduled NACI at the Office of Personnel Management.

10.8 ACCESS TO GOVERNMENT SYSTEMS

In accordance with DoD Directive Number 8500.01E, dated 24 October 2002, access to all DoD information systems shall be based on a demonstrated need to know, and granted in accordance with applicable laws and DoD 5200.2-R (reference) for background investigations, special access and IT position designations and requirements.

Contractors are not allowed access to any DoD system without explicit authorization of a relevant Government official. Individuals shall have the appropriate clearance for access to a particular system.

11.0 HOURS OF WORK

The Contractor shall perform onsite work during normal business hours except Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. The Contractor shall, at all times, maintain an adequate work force for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reason. The Contractor shall consider workforce stability and continuity as essential factors when hiring personnel.

11.1 Work within the continental limits of the United States and its possessions shall not normally exceed eight (8) hours per day or forty (40) hours per normal work week. Work hours OCONUS shall correspond to hours worked by comparable Government personnel.

11.2 The contractor work week is forty (40) hours. Contractors shall obtain authorization from the COR prior to incurring any hours in excess of the contractor work week in accordance with the contract. Any services that extend beyond the forty (40) hours in a given calendar week shall be proposed and billed in accordance with the uncompensated overtime rate as defined in FAR 52.237-10.

11.3 Contractor personnel performing at a Government site shall observe federal holidays and other days identified in this section unless otherwise indicated in a task order.

The Government observes the following days as holidays:

- New Year's Day
- Birthday of Martin Luther King, Jr.
- President's Day
- Memorial Day
- Juneteenth Day
- Independence Day
- Labor Day
- Columbus Day
- Veteran's Day
- Thanksgiving Day
- Christmas Day

In addition to the days designated as holidays, the Government may also observe any day designated by Federal Statute, Executive Order, or Presidents Proclamation.

12.0 PLACE OF PERFORMANCE: The primary place of performance for this effort is the Pentagon, Washington D.C. The specific place of performance will be identified in the applicable task section. The Government's work site shall be used depending on the requirements of the individual task section. Contractor personnel commuting and parking costs for their normally assigned location will not be reimbursable.

The COR may authorize telework under increased levels of health protection conditions (HPCON) within the Pentagon or other government facilities. If the telework is authorized, the COR will notify the Program Manager in writing specifying any conditions and limitations. Normally, telework will not be authorized at HPCON Alpha or Routine conditions.

13.0 PERIOD OF PERFORMANCE: The period of performance shall be a six (6) month Base which is anticipated to begin 28 November 2020 with four (4) 12-month option periods.

14.0 MANPOWER REQUIREMENT

Total FTEs			15	

MISSION CRITICAL POSITIONS The positions specified as Mission Critical in the above Section 14.0 - Manpower Requirement table are considered essential to the work being performed under this contract. Personnel assigned to these positions may, with the mutual consent of the COR and the PM, be changed during the course of the contract.

The Contractor has thirty (30) days to fill the mission critical positions that are vacant. Non-mission critical positions to be filled in twenty-five (25) working days from date of vacancy.

All mission critical positions are required to be filled at contract period of performance start date unless otherwise noted.

14.1 QUALIFICATIONS

14.1.1 Program Manager (.2 FTE)

A Program Manager requires a Masters' degree in a technical or management discipline with seven (7) years' experience, to include five (5) years managing complex projects involving a large number of people in subordinate groups *OR* a Bachelors' degree in a technical or management discipline with fifteen (15) years' experience managing progressively more complex systems/projects. The candidate must be able to organize, direct, and coordinate planning and production of all contract activities; interface with client management including the contracting officer and the Contracting Officer's Representative (COR). The candidate must have experience in recruiting personnel necessary to perform assigned tasks; establish and alter (as necessary) program organization to provide effective contract support; and assign, schedule, and provide configuration control and quality assurance of project team deliverables. The candidate must ensure conformance to task specifications and contract provisions.

14.1.3 Operational Research Analyst (1 FTE)

Summary of duties and responsibilities – Applies mastery level skill in advanced analytical, mathematical, or statistical techniques related to statistical analysis, parametric and non-parametric analysis, computer modeling, simulation, decision theory, mathematical programming, regression analysis, and economic analysis. Serves as a senior analyst in an analysis cell responsible for developing analytical models and methods. Advises other operations research analysts, scientists, or engineers on techniques best suited for analyzing their problems.

Education and Experience – Masters from an accredited college or university in Operations Research plus 5 to 8 years of task related experience, *OR* a Bachelor's degree from an accredited college in Engineering (usually Industrial Engineering), Science, Economics, Mathematics, Statistics, or Management Science with at least 24 semester hours in a combination of operations research, mathematics, probability, statistics, mathematical logic, science, or subject-matter courses requiring substantial competence in college-level mathematics or statistics. At least 3 of the 24 semester hours must have been in calculus with at least 12 years of task related experience. Possesses knowledge of the Joint Force, experience analyzing forces, and/or experience supporting the U.S. Armed Forces.

14.1.5 Subject Matter Expert (8.8 FTE)

Summary of duties and responsibilities – Provides extremely high-level subject matter expertise for work described in the task. Provides advanced technical knowledge and analysis in a number of professions including national security, international relations, military, and Operations Research Systems Analyst (ORSA) related fields, which require doctorate level knowledge of the subject matter. Applies principles, methods, and knowledge of specific

functional areas of expertise to specific task order requirements. Provides advice on esoteric problems, which requires extensive knowledge of the subject matter. Designs and prepares technical reports, studies and related documents. Plans and prepares technical briefings. Supports all aspects of a military organization's research and development policies, objectives, and initiatives. Research new technologies that align with the mission and goals of the military organization.

Education and Experience – Recent (within 2 years) Government experience and 10 years related experience combined with a Master's Degree from an accredited college or university in the subject matter discipline as identified in the task order; OR a PhD from an accredited college or university in the specific subject matter discipline as identified in the task order, OR a Masters from an accredited college or university in the specific subject matter discipline as identified in the task order plus 15 years of task related experience. Possesses extensive knowledge of the Joint Force as demonstrated by education and/or assignments, and/or extensive experience supporting the Joint Force.

14.1.6 Senior Source Analyst (3 FTE)

Summary of duties and responsibilities – Source Analysts shall support studies of combined and joint military operations conducted across the spectrum of war, from theater campaigns to operations other than war. Study objectives include course of action analysis, operational planning, time-phased force deployment data, feasibility assessments, identifying and managing areas of operational risk, determining force requirements, and developing tactics, techniques, and procedures for tactical and operational problems. Analysis is performed using widely accepted military combat models and simulations, all source intelligence analysis as well as other appropriate operations research techniques. Source Analysts provide support to gaming activities. Source Analysts interpret, synthesize, and present results and recommendations to senior military and civilian decision makers. Source Analysts shall be responsible for employing and maintaining selected models and simulations (to include their data bases) specifically designed to analyze some aspect of military operations. Must be capable of leading and managing interdisciplinary study teams conducting studies of a scope and nature expected of a theater level command. Also, must have a detailed knowledge in military doctrine, planning and operational employment of forces - combat arms, combat support, and combat service support. Applies broad understanding of military command and control and force structure at the unified and specified level (joint commands) to the joint planning process and mission analysis.

Education and Experience – Master's Degree from an accredited college or university or BA/BS degree minimum with 15 years of task related experience. Possesses extensive knowledge of the Joint Force as demonstrated by education and/or assignments; and/or extensive experience supporting the Joint Force. Operational experience includes planning and executing combined and joint operations at the theater or component level, knowledge of combat arms, all source intelligence analysis, logistics, civil-military operations, and site's area of responsibility or functional area) and task related experience.

14.1.7 Source Analyst (1 FTE)

Summary of duties and responsibilities – Source Analysts shall support studies of combined and joint military operations conducted across the spectrum of war, from theater campaigns to operations other than war. Study objectives include course of action analysis, operational planning, time-phased force deployment data, feasibility assessments, identifying and managing areas of operational risk, determining force requirements, and developing tactics, techniques, and procedures for tactical and operational problems. Analysis is performed using widely accepted military combat models and simulations, all source intelligence analysis as well as other appropriate operations research techniques. Source Analysts provide support to gaming activities. Source Analysts interpret, synthesize, and present results and recommendations to senior military and civilian decision makers. Source Analysts shall be responsible for employing and maintaining selected models and simulations (to include their data bases) specifically designed to analyze some aspect of military operations. Under immediate supervision, formulates and defines analysis scope and objectives.

Education and Experience – Bachelor's Degree from an accredited college or university plus 10 years of task related experience. Possesses knowledge of the Joint Force as demonstrated by education and/or assignments;

and/or experience supporting the Joint Force. Operational experience includes planning and executing combined and joint operations at the theater or component level, knowledge of combat arms, all source intelligence analysis, logistics, civil-military operations, and site's area of responsibility or functional area) and task related experience

14.1.8 Junior Source Analyst (1 FTE)

Summary of duties and responsibilities – Source Analysts shall support studies of combined and joint military operations conducted across the spectrum of war, from theater campaigns to operations other than war. Study objectives include course of action analysis, operational planning, time-phased force deployment data, feasibility assessments, identifying and managing areas of operational risk, determining force requirements, and developing tactics, techniques, and procedures for tactical and operational problems. Analysis is performed using widely accepted military combat models and simulations, all source intelligence analysis as well as other appropriate operations research techniques. Junior Source Analysts leverages the efforts of other members of an analysis team, output data reduction and formatting for presentation or inclusion in documentation; data management; facilitation of collaborative activities; and provision of expertise in data reduction techniques and tools specifically for task tracking, data entry and document management. Under immediate supervision, gather data from various sources and assist in analyzing it to identify trends and patterns. Additional requirements include report preparation: assist in the preparation of reports, briefings, and presentations based on data analysis.

Education and Experience – Bachelor's Degree from an accredited college or university plus 3 years of task related experience. Possesses knowledge of the Joint Force as demonstrated by education and/or assignments; and/or experience supporting the Joint Force. Operational experience includes planning and executing combined and joint operations at the theater or component level, knowledge of combat arms, all source intelligence analysis, logistics, civil-military operations, and site's area of responsibility or functional area) and task related experience

15.0 DEFINITIONS & ACRONYMS

AAR - After Action Review
AoA – Analyses of Alternatives
AWG - Analysis Working Group
ACCM – Alternative Compensatory Control Measures
ASSM – Alternate Compensatory Control Measures
CAD – Capabilities Acquisition Division
CJCS – Chairman of the Joint Chiefs of Staff
COCOM – Combatant Commands
CRS – Chairman's Readiness System
CSA – Combat Support Agencies
CSART – Combat Support Agency Review Team
Contracting Officer's Representative (COR) – A representative from the requiring activity assigned by the Contracting Officer to perform surveillance and to act as liaison to the Contractor
CPARS – Contract Performance Assessment Review
Defective Service - A service output that does not meet the standard of performance associated with it in the PWS
Delivery Date – The specific time of delivery and/or performance
DCMA - Defense Contract Management Agency
DHA - Defense Health Agency
DIA - Defense Intelligence Agency
DISA - Defense Information Systems Agency
DLA - Defense Logistics Agency
DTRA - Defense Threat Reduction Agency
DWAG - Defense Wargaming Alignment Group
DoD – Department of Defense
ETMS2 - Enterprise Task Management Software Solution (ETMS2)
FAR - Federal Acquisition Regulation
FD – Forces Division
GFM – Global Force Management
GP - Government Property (GP)
HPCON - Health Protection Conditions
IAW - In accordance with
JCIDS – Joint Capabilities Integration Development System
JKO – Joint Knowledge Online
JLLIS – Joint Lessons Learned Information Systems
JS – Joint Staff
JROC – Joint Requirements Oversight Council
JSIG – Joint Staff Innovation Group
JSPS – Joint Strategic Planning System
JTIMS - Joint Training Information Management System
JTR – Joint Travel Regulations
MSR – Monthly Status Report
Metrics - A system of parameters or ways of quantitative and periodic assessment of a process that is to be measured, along with the procedures to carry out and interpret such measurement and assessment
NGA - National Geospatial-Intelligence Agency
NISPOM - National Industrial Security Program Manual
NSA/CSS - National Security Agency / Central Security Service
ODC – Other Direct Costs
OPT - Operational Planning Team
OSD – Office of the Secretary of Defense
Performance Objective – The service and/or activity required
Performance Requirement – The outcomes, or results, that lead to satisfaction of the objective(s)

Performance Standard – Establishes the performance level required by the Government to meet the contract requirements. The standards shall be measurable and structured to permit an assessment of the contractor's performance

Performance Threshold – Minimum acceptable level, error rate and/or deviation from standard

Performance Work Statement (PWS) – A detailed work statement for performance-based acquisitions that describes the required results in clear, specific and objective terms with measurable outcomes

PII - Personally Identifiable Information

POA&M - Monitor Program of Action & Milestones

POM - Program Objective Memorandum

PSA - Principal Staff Assistant

Quality Assurance (QA) - Those actions taken by the Government to assure services meet the requirements of the PWS

Quality Control (QC) - Those actions taken by a contractor to control the performance of services so that they meet the requirements of the PWS

Quality Control Plan – A document organizing the performance control processes to be applied in delivering the level of service required by the PWS

SARAO - Support Agency Review and Assessment Office

SAGD – Studies, Analysis and Gaming Division

SAP – Special Access Program

SAR – Special Access Required

SCI – Sensitive Compartmented Information

SCIF - Sensitive Compartmented Information Facility

SOP - Standard Operating Procedures

SSBI - Single Scope Background Investigation

Task – How the contracting effort fits within the existing or intended customer environment both technically and organizationally; a specific piece of work to be completed within a certain time period

Technical Assistant (TA) – The Government will identify a Technical Assistant (TA) to assist the COR.

TMT -

TS – Top Secret

TTX - Tabletop Exercises

Wide Area Workflow (WAWF) – A secure Web-based system to allow contractors to submit electronic invoices and provide the Government a means to electronically receipt for and accept supplies and services.
